MT-09 Y-AMT

The Dark Knight

The first MT-09, unveiled more than a decade ago, brought pure emotion and excitement back to the world of motorcycling, kick-starting the Hyper Naked revolution that would change everything. A radical machine with high torque and a super agile chassis: this is a bike like no other. The combination of the torque-rich CP3 motor and aggressive bodywork makes the MT-09 one of the most formidable forces in Yamaha's range.

Inspired by the urban sub-culture found on the streets of Japan, the MT-09 combines intelligence and style, offering a thrilling ride and pure adrenaline with its aggressive and edgy styling and a premium Y-AMT specification featuring the very latest in technology.

- Un nuevo nivel de pilotaje: MT-09 con Y-AMT y sistema de llave inteligente

This Dark Side of Japan philosophy commands a strong emphasis on the thrill and emotion of riding, combined with a focus on superior quality, minimalist design and next level technology. This focus results in the best engine and chassis package, class-leading rider aids and dynamic, aggressive styling ensuring the premium specification MT-09 is the purest Hyper Naked of them all.

Unleash your Darkness.

Ten years ago Yamaha unveiled a motorcycle which would change everything, marking the beginning of a revolutionary new chapter not only in the history of Yamaha, but in the world of motorcycling too. Now, the MT-09 reaches new levels of Darkness. Combining intelligence and style, this generation offers an even more thrilling ride and pure adrenaline, with aggressive and edgy styling and a premium Y-AMT specification featuring the very latest in technology.

Infused with Dark Side of Japan DNA, the MT-09's aggressive look is designed to amplify the feeling of the CP3's iconic torque-rich acceleration. Embodying a 'less is more' approach, each and every detail is intended to reinforce the MT-09's aggressive style.

A compact and agile chassis results in razor sharp handling, while a redefined riding position delivers the most heightened and engaged riding experience in the Hyper Naked range. Next level technology further enhances the riding experience, including optional Y-AMT, lean-sensitive rider aids, customisable riding modes and an all-new full colour TFT dashboard featuring smartphone connectivity and navigation.
